

Ayrton Senna Tunnel Complex

São Paulo, Brazil

Completion Date
1996

Contractor
CONSTRAM ENGEHARIA

Coverage
8,000 SQ.M.

Products
SHOTCRETE, PATCH'N PLUG

Project Type
TUNNELS

This tunnel passes under the lagoon in Ibirapuera park. A two-coat shotcrete application of Xypex Concentrate was applied to 2,800 m of concrete, in two separate tubes within the tunnel. Xypex Patch'n Plug was used to seal the cracks with water seepage.
